Subject: IN THE MATTER OF THE APPLICATION OF LYLES RESIDENCE FOR  
CERTIFICATION AS AN ELIGIBLE ENERGY RESOURCE UNDER THE  
DELAWARE RENEWABLE ENERGY PORTFOLIO STANDARD  
(Filed February 4, 2011, Applied for Ownership Change July 31, 2015) – PSC  
Docket No. 11-53/15-1467

---

**Application:**

The Lyles Residence (the “Applicant”) filed an application with the Commission on February 4, 2011, **and applied for revision July 31, 2015**, seeking approval, pursuant to 26 Del. C. § 351 -363, for the certification of their generation unit located at 6943 Atlanta Circle, Seaford, DE 19973.

**Staff’s Review:**

Pursuant to 26 Del. C. § 351 – 363, the Commission issued Order No. 6931, dated June 6, 2006, which adopted the Rules and Procedures to Implement the Renewable Energy Portfolio Standard (“Rules” or “Regulation”). The Rules require that Retail Electricity Suppliers comply with the Renewable Energy Portfolio Standard (“RPS”) through the filing of Renewable Energy Credits (RECs) created in PJM-EIS Generation Attributes Tracking System (“GATS”). RECs are created in GATS by Generation Units which are certified by the Commission as Eligible Energy Resources. Upon designation as an Eligible Energy Resource, the Generation Unit’s owner shall be entitled to one (1) REC for each mega-watt hour of energy derived from Eligible Energy Resources. The Commission through its Staff will certify Generation Units as Eligible Energy Resources based on the definition of Eligible Energy Resources found in Section 1.0 of the

Rules. Staff has reviewed the application for compliance with the requirements of 26 Del. C. § 351 – 363 and the Rules.

**Staff's Findings:**

According to the application, the Generation Unit is located within the PJM control area at 6943 Atlanta Circle, Seaford, DE 19973. The Generation Unit's fuel type is Solar with a .004026 MW rated capacity. The Applicant's facility is Customer-Sited Generation and uses a Net Meter (Digital). At this time, the Applicant has no other PJM-EIS GATS State Certification Numbers assigned to this facility.

**Staff's Recommendation:**

Staff recommends that the following State of Delaware Certification Number be assigned to Applicant's facility for use in PJM-EIS GATS:

**Lyles Residence      DE-99180-SUN-01-00**

The fourteen-digit State of Delaware Certification Number is consistent with the GATS identification system. The first two letters represent the state that is certifying the facility. The next five digits identify the facility. The following three letters represent the Eligible Energy Source on which RECs from the facility are based. The last two digits indicate whether the facility meets the definition of a New Renewable Generation Resource, which is defined as an Eligible Energy Resource first going into commercial operation after December 31, 1997.

**Conclusion:**

Seven (7) calendar days from the date of this Memorandum, the above State of Delaware Certification Number, **and requested ownership change**, shall be deemed approved and is to be used in accordance with the PJM-EIS GATS for use in creating RECs.

**Groups which should receive a copy of Memorandum:**
